

FINANCING FOR REDD

Miguel Milano
Permian Global

Cuiabá – MT, outubro 2014

Permian Global is an investment firm dedicated to the protection and recovery of natural forests to mitigate climate change

The vision

We envisage a world where the threat of climate change is halted. We aim to contribute to this goal through large-scale forest protection projects

- ***Invest***

Carefully selected projects to protect and restore tropical forests

- ***Manage***

Using proven techniques to maximize carbon storage, sequestration and co-benefits

- ***Generate***

High quality carbon credits for sale, certified to most exacting standards

- ***Realize***

Provide sustainable revenue streams for both investors and local project stakeholders

Our Approach

... brings together private enterprise and local stakeholders to develop long-term financially sustainable projects generating high-quality carbon credits along with substantial environmental and social gains.

Non-extractive forest management

... we do not engage agroforestry and logging activities, although we recognize these may play a role supporting social and economic development in some areas

Investment opportunity / investment philosophy

The urgent need for climate change mitigation is giving rise to an important new investment asset class, and non-extractive forest management offers the most efficient mitigation channel once plants are the only natural technology to ...

Permian is committed to deliver excellent long-term financial, social and environmental results. Four core elements in our approach: project origination, investment process, project management and carbon sales – with a thorough risk management process. We integrate risk management into the fabric of our investment strategy to protect the assets that we manage for our investors, while adhering to the highest environmental and social standards.

INVESTORS -> \$\$\$ -> PROJECTS' FUNDS

PROJECTS -> CARBON CREDITS

CARBON CREDITS SALES -> \$\$\$

\$\$\$ -> PAY COSTS & GENERATE PROFITS

PROFITS -> PAY INVESTORS WITH GAINS

KEY IDEAS AND PRINCIPLES

FORESTS SEEN AS ONE OF THE MAIN SOLUTION FOR CLIMATE CHANGE MITIGATION

REDD NEEDS PRIVATE INVESTMENTS , THE ONLY SOURCE OF FINANCIAL RESOURCES ABLE TO COVER THE FUNDS NEEDED TO FACE SUCH IMPORTANT AND IMPACTING GLOBAL PROBLEM (CLIMATE CHANGE)

PRIVATE INVESTMENTS NEED MINIMALLY CLEAR AND STABLE RULES, ALTHOUGH THE APPETITE FOR RISKS

RISKS MUST BE MANAGEABLE AND EFFECTIVELY MANAGED

Thank you!
